

NEW ISO 9001:2015 SEMINAR

The most successful ISO Standard, ISO 9001, is just completed the revision and already published on September 2015 with the new title ISO 9001:2015. We will inform you about the main changes and let you know how you will be prepared for the transition.

Why is ISO 9001 changed?

All ISO standards are reviewed and revised periodically to assure relevance and adequacy for all types of organizations, in all sectors. The New ISO 9001:2015 will respond to the latest trends and be compatible with other management system standards, such as ISO 14001.

There are significant changes to the standard such as the new High Level Structure and increased requirements for top management commitment.

Our half day briefing session aims to provide you with the main changes to the standard and what they mean for your organization.

The agenda for the day:

ISO 9001:2015

- The changes to the standard
- What the new structure look like?
- The certification transition process and what's involved
- Interrelationships with other core standards

Who should attend?

Every organization that is certified to ISO 9001:2008, or is looking to achieve certification to the new standard. This briefing session is aimed at our customers who are certified to ISO 9001:2008, or are looking to achieve certification to the new standard. This is an exclusive event for our DQS clients and by invitation only.
