

# *Advanced Product Quality Planning & Production*

## *Part Approval Processes Training Course*

### **DESCRIPTION**

This course provides a detailed examination of the required deliverables of APQP for your automotive customer. The purpose of PPAP is to determine if the customer engineering, design record, and specification requirements, are properly understood; and that the production process has the potential to meet these requirements during an actual production run at the quoted production rate.

### **LEARNING OBJECTIVES**

Understand your automotive customers' PPAP requirements, as well as, learning the linkage between the Core Tools and ISO/TS16949.

After this training, the participants will have knowledge and understanding of:

- PPAP alignment with TS16949 and APQP
- PPAP Definitions, Scope, and Purpose
- Requirements for Submission
- PPAP Process Requirements
- Part Submission Warrant

### **AUDIENCE**

This course is intended for engineers and engineering managers that have a responsibility of developing and managing relationships within the supply chain. It is also useful for quality engineers who are work with PPAP documentation.

### **COURSE CONTENT**

- An overview of the APQP process
- Project Management and Timing Plans
- Defining project scope and requirements
- Product development
- Product design
- Process design and development
- Product and process validation and control plans
- Evaluation of evidence submitted
- Levels of Submission and Evidence required
- Materials data and use of IMDS database
- Process capability
- Feedback and Corrective Improvement
- Continual Improvement

### **COURSE VENUE**

Sahati Hotel (South Jakarta), 20 November 2014

### **COURSE DURATION**

This is a 1 (one) day course, the time will be from 09:00 to 17:00.

### **COURSE FEE**

Rp. 1.500.000,- per delegate..

### **COURSE MATERIALS**

Students receive comprehensive course manuals with reference materials.

### **ABOUT PT. DQS Certification Indonesia**

**PT. DQS Certification Indonesia** is member of DQS-UL Group, one of the largest Certification Body in the world. DQS-UL group currently has about 20,000 certified customers across almost all industries with approximately 55,000 certified locations in over 130 countries. The company employs about 2,800 people of which 2,400 are auditors.
